- Technical Troubleshooting & Root Cause Analysis**
Proven ability to troubleshoot complex aircraft discrepancies and drive effective solutions.
- Adaptable & Mission-Focused**
Right-sized support that integrates seamlessly with government, prime, and industry teams.

COMPANY OVERVIEW

Flowshua Projects LLC helps defense organizations improve visibility, coordination, documentation, quality assurance, and execution across aviation maintenance and operational support programs. Our services strengthen mission readiness by providing disciplined project coordination, technical documentation, schedule management, reporting, and operational support.

We support federal agencies, prime contractors, defense contractors, and commercial organizations by improving visibility, coordination, documentation, and accountability—so teams can make informed decisions, meet critical milestones, and stay mission ready.

NAVAL AVIATION QUALITY, MAINTENANCE & READINESS EXPERTISE

CDOAR – COLLATERAL DUTY QUALITY ASSURANCE REPRESENTATIVE

Authorized to independently inspect, verify, and validate aircraft maintenance actions to ensure compliance with Naval Aviation maintenance standards, technical publications, and quality assurance requirements.

NALCOMIS OMA & MAINTENANCE DOCUMENTATION

Experienced in NALCOMIS OMA work center management, data accuracy, maintenance tracking, technical documentation, and reporting that drive visibility and decision-making.

CDI – COLLATERAL DUTY INSPECTOR

Authorized to inspect maintenance actions for technical accuracy, workmanship, regulatory compliance, and adherence to approved maintenance procedures.

GAS TURBINE & TURBOPROP PROPULSION SYSTEMS

Hands-on experience troubleshooting, inspecting, repairing, and maintaining gas turbine and turboprop propulsion systems while supporting safe, reliable, and mission-ready aviation operations.

TECHNICAL TROUBLESHOOTING & ROOT CAUSE ANALYSIS

Diagnosed and resolved complex aircraft discrepancies across engines, fuel, hydraulic, propeller, electrical, and mechanical systems using technical publications, maintenance documentation, and systematic fault isolation.

MAINTENANCE PLANNING & MISSION READINESS

Supports maintenance planning, inspection coordination, documentation control, discrepancy management, and operational readiness for mission-critical aviation programs.

OPERATIONAL IMPACT: Flowshua improves execution, strengthens quality assurance, increases operational visibility, and supports mission readiness through disciplined processes, technical expertise, and accountable project execution.
